

FINISHED PRODUCT SPECIFICATION

SilverStream® is a hypertonic buffered solution, with hydrogel properties and a pleasant odor, for wound management and maintenance of wound moisture level. SilverStream® is a clear, colorless solution, protected from microbial contamination by a low concentration of Ionic Silver and supplied in 100ml, 250ml and 500ml bottles.

Catalog numbers and GTIN identification note:

The catalog numbers of both the RX and OTC versions of our products are identical. Any differences in qualification between the final product RX and OTC versions are indicated by unique GTIN numbers that are assigned to each product, country, and distributor for logistical and transability purposes. The list of GTIN numbers assigned to each product, size, market, application (etc.) will be provided separately. (UDI-DI supported).
